Sample Variation Disclaimer: The beauty of hardwood flooring lies in natural variations in color, grain, and texture inherent in all wood products. Please expect variation in all flooring and understand that, although we color calibrate all of our photos, color may appear differently on different monitors, devices, and/or prints, and flooring will vary in hue and saturation based on differing lighting conditions. Samples that have been exposed to sunlight or naturally aged may differ slightly from the product received. Garrison accepts no liability for claims due to variations in color, grain, and/or character between samples and your installed floor. INSTALLATION IS ACCEPTANCE.

Product Disclaimer: All measurements are nominal. Wear layer refers to top layer thickness prior to treatment. Wire-brushing and/or distressing may marginally affect wear layer thickness. All boxes include starter boards.

Order Disclaimer: We recommend buying all flooring at the same time for your project. Otherwise, we cannot guarantee matching flooring if adding to an order. In the event additional flooring needs to be ordered, flooring may differ in color, grain, texture, and/or size due to inherent variations in natural wood products. When ordering, always factor in at least one full box for any/all unforeseen damage that may occur during the life of your floor. Please consider and allow for a waste factor of 3-5% on normal layouts and 5-10% on detailed layouts such as 45-degree angles, patterns, border work, etc. Please also include end joint stagger and note that minor imperfections are to be cut off prior to installation.
